- 练习 P18 Test15

The reading passage claims that several measures have been taken to solve the problem of the rapid growth of cane toads in Australia. However, this idea is questioned by the following lecture.

First, the reading material asserts that building national fences would be useful for preventing cane toads from invading domestic ecosystem. It states that this measure has been used for prevent rabbit spreads in Australia before. On the contrary, the speaker argues that streams and rivers can bring young cane toads and ~~cane toads'~~ toad eggs from one side to the other side ~~of the fences~~.

Secondly, the lecturer points out that untrained volunteers could destroy ~~national~~ native frogs and even put young frogs that are difficult to distinguish in danger, which contradicts the theory discussed by the article that Australians can gather volunteers to catch toads and even destroy them by traps and hands. Thus, this method won't be practical.

Finally, the reading passage states that virus can be used to control the population of cane toads because it only does harm to the cane toads while do little harm to most of the other species. Conversely, the lecturer refutes the idea by saying that virus may be transported by ~~scientist~~ pets from Australia to America, which is the origin inhabitant for cane toads, while the cane toads play an important role in the local ecosystem. This could be a disaster for the species there and the ecosystem.

Now, I'm studying in my favorite university and have a bright future that my parents and I can never expect. Therefore, I prefer to ... through personal experience.

With no hesitate, I chose to fight for the award and stay up late to finish the rest of my homework. Finally, I won the award and finish my homework in time. So I

## 独立写作的主体

- 写作结构
  - Topic sentence
  - Supporting details: facts, logical arguments, or the opinion of experts
    - ◆ 逻辑、对比、举例论证等
  - Concluding parts
- 逻辑论证: 一定要 **be specific**
  - 串联、并联、对比、让步, 无论什么论证, 一步一步推出来的时候一定要细化每一个抽象的名词, 例如 evaluation 要用具体的指标, put heads together 要加上 share unique insights, learn from each other, teach confusing concepts 等具体内容, improve learning efficiency: 什么才是学习效率的提高, 比如完成题目的时间缩短了、分工更加细致, 每人负责不同的部分、还可以在 complete projects, develop presentations, prepare for exams, **细节补充!!!!!! WHAT, WHY, HOW**
  - 串联
    - ◆ 方法
      - A (原因) -> B (结果)
      - A->R1->R2->R3->B (这个提纲最好要列)
      - Make sentences + Language use
      - Add details + Language use
      - Transition words-cause & effect
    - ◆ 连接词->托福考试**很看重**逻辑性, 连接词什么的

      - because of, result from, due to, with, ... + doing
      - thus, therefore, consequently, accordingly, hence, as a result, ...
      - contribute to + 词
    - ◆ 练习: Do you agree or disagree with the following statement? Young people enjoy life more than older people do.
      - Thesis: Agree
      - 推理: Health issues->enjoy life less
        - 我的: Health issues->have health problems to worry about->go to hospitals often + obey doctors' advice->have less time doing other things or spending with others->enjoy life less
        - 样例:

- ◆ health issues
- ◆ ->suffer from serious physical diseases
  - simple flu->complicated medical complications (严重的医学并发症)
  - chronic diseases: high blood pressure, cancer, diabetes, ...
- ◆ ->mentally depressed
  - feeling constantly tired and drained of energy fighting the physical pain
- ◆ ->enjoy life less
  - First, with more health issues to worry about, the elders can enjoy life less than younger people do.
- ◆ 练习: It is better to spend money on traveling and vacation than save money for the future.
  - Thesis: spend money on traveling
  - 推理: traveling->physical health.
    - Traveling->walk more than ten thousand steps + even climbing hills or mountains->improve our strengths and promote our heart and lung functions->be strong and improve physical health.
    - To begin with, it's good for your physical health to spend your extra money on traveling. During your travelling, you will probably walk more than ten thousand steps in a day and even climb several hills or mountains. Therefore, your strengths can be improved and your heart and lungs functions will be promoted, due to the sweat that flows during the tour helping you reduce the body fat level, so that you can endure much more incidents than ever before. Accordingly, your physical health can be improved after spending money in traveling.
  - 推理: traveling-> enjoy lives
    - Traveling->keep away from daily works and social activities + breath fresh air and enjoy the beautiful scene (intriguing landscapes) while traveling->release burdens->enjoy lives.
  - 语用: intriguing landscapes、mysterious cultures
- ◆ 串联如果不知道怎么推的话, 可以反推什么东西可以推出现在的东西

  - ◆ 例题: It has recently been announced that a new high school may be built in

your community. Do you support or oppose this plan? Why?

- Thesis: Agree
- Topic sentence: The unemployment rate can be reduced effectively.
- 并联推理:
  - 新学校 -> 新的 Faculty(teaching staff, administrative and logistical personnel, security force)->reduce unemployment rate
  - 新学校 -> 建筑工人、建筑设计师、工程师(workers, designers, architects, engineers)-> reduce unemployment rate

◆ 练习: Some people prefer to study alone while others prefer to study in a group. Which one do you prefer?

- Thesis: group study is better
- Topic sentence: Studying in a group can help students to learn more effectively.
- 并联推理
  - 小组学习 -> 共同解决问题(instead of wasting valuable time trying to solve difficulties alone,...) (对比论证) -> 节约时间 -> 提高学习的效率
  - 小组学习 -> 在固定的时间见面(usually meet at a regular times)-> 预防拖延(rather than postpone projects until the night before the class, ...cannot procrastinate because ...)-> 提高学习的效率

■ 对比论证: 注意 What、Why、How

◆ 方法论

- 找到题目中的两个对象 C, E
- 对两个对象分别进行推理 (比较鲜明的正反或单纯的对比都可以, 不同的对象不同的结果)
  - C->M1->M2->P
  - E->F1->F2->N
- Make sentences+ language use
- Add details+ language use
- Transition words

◆ 例题: Some people prefer to study alone while others prefer to study in a group. Which one do you prefer?

- Thesis: Studying in a group has more benefits
- Topic sentence: Studying in a group has higher efficiency
- 对比论证
  - study in a group->集思广益(put heads together)->容易解决问题 (tackle the problems: **e.g.: share unique insights, learn from each other, teach confusing concepts** 要细化内容)->节约时间->高效 (**particularly for completing projects, developing presentations,...**)
  - study alone->独自思考->思想受到限制(be confined to)->浪费时间 ->低效
    - ◆ In contrary, students learning alone have to think independently especially when delivering their ideas on a specific topic, calculating difficult math problems and so forth. Therefore, their mind may be confined to a specific area by making **many**

**detours.** For example, math problems...

- 连接词：result in, lead to, contribute to doing; while, whereas, otherwise, occasionally, ...

◆ 例题：

- Traveling and vacation->stimulate to work harder
  - traveling and vacation->get excited while preparing->relaxed during vacation->look forward to the next trip->stimulate to work harder
- save money for the future->lose working passion
  - save money for the future->not enough ways to release the burden->the burden accumulates day by day->get anxious and depressed ->lose working passion
  - 例子：saving money->bear stresses and strains on consecutive works without caring about their health->unable to aware of quality of their lives->as a result, those employees might despair of their future and thus lack motivation to work.

◆ 练习：In many places, students aged 12-18 are taught diff subjects by diff teachers while younger children are usually taught by only one teacher all day long. Some people believe that it is better to have several diff teachers to teach those younger children every day.

- Thesis: diff teachers
- 推理：不同老师->学生的学习效果更好
  - 正面：diff teachers->has their strengths in diff fields->teachers can play their strengths while teaching->better learning effectiveness
  - 反面：same teacher->have insufficient understanding of some fields->mislead students->students get confused when studying these fields, even get bored on other subjects->worse learning effectiveness
- 段落：To begin with, teaching by different teachers will improve younger children's learning effectiveness. Apparently, different people have their strengths to(have expertise in) different fields and so do teachers. For a specific topic, teachers who are familiar with it, such as majoring in the subject in this field, can play their strengths while propagating(impart, propagate 一般用于政治传播) knowledge to young students. As a result, students can gain a better learning effectiveness. In contrary, teaching by the same teacher all day long may mislead students because of their insufficient understanding in some fields. If students encounter some ~~professional~~ problems(in specific fields), the teacher will probably not give a correct solution ~~to them~~. Therefore, students might get confused when studying these fields. What's worse, it's possible for them to get bored on other related subjects and this may lead to worse(lower level of) learning initiative. Thus, teaching by same teacher will cause worse learning effectiveness for young students.

- 让步论证（欲擒故纵？先抚摸再打一棒）

◆ 方法

- 承认问题->解决问题
  - 确认自己存在问题->提出解决方法
  - 双方都有问题->但是我可以解决，你不可以（包含了对比）
- 错误->转换角度->其实不是问题
- ◆ 例子：A, B, C 三个角度，现在假设选 C
  - A+, A-
  - B+, B-
  - C-, C+
- ◆ 例题：Do you agree or disagree with the following statement? Young people enjoy life more than older people do.
  - 诚然，年轻人身体比较健康，但是年轻人也有越来越多的疾病
    - 年轻人->新陈代谢 (metabolism) 快&免疫系统强->更不容易感染疾病->身体比较健康
    - 但是年轻人->学习压力大->久坐不动->各种各样的疾病问题 (back ache and neck pain) ->越来越多的疾病
- ◆ 转折词：
  - Nevertheless, to take a close look, after careful deliberation,
  - However, the limitations are obvious, ...
  - However, it is well worth noticing that this assertion cannot be taken as a general rule as ... also ...
- ◆ 逻辑词
  - Admittedly (诚然), Granted, Undeniably, Indisputably, ...
  - At first glance/sight
- ◆ 练习：It is more important for universities to spend money on improving facilities (such as library, computer labs, and technology in general) than to spend money on hiring famous teachers.
  - A+提升设施->A-：设施不是必须的->B+：pro 老师，会更好
  - B+：诚然，更新设施 (cutting-edge 尖端的，前端的) 可以满足 (cater to) 学生的一些需求 (demands)，但是，这些更新对于学生来说并不是必需品 (Nevertheless, to take a close look, such facilities are probably bonuses rather than necessities.)
  - A+：雇佣更多有名的老师 (impart sufficient knowledge to students.)
- ◆ 练习：Movies and television have more negative effects than positive effects on behaviors of young people.
  - 弊大于利：虽然各种类型的电影作品可以带来好处 (领略风光、文化，拓宽视野)，但是与此同时越来越多的电影作品在监管不力的情况下未经审核 (censor) 的内容会质量良莠不齐 (hard to distinguish the good composition from the bad one/are patchy(斑驳的) in terms of quality) 这样。
  - ... 见证了前所未有的...：sth. has witnessed an unprecedented boom in recent years.
- ◆ 第三次作业：练习：The government wants to make investment to improve education. Which one of the following investments do you think is best?
  - To hire more teachers to teach in small class

- Preschool education before kindergarten
- To provide some training courses so that teachers can be more professional
- 文章推理逻辑：
  - 小班教学可以针对学生定制个性化学习->但个性化学习更多的是针对学生的弱点做补充，而非增强学生探索专业化道路的能力；
  - 学前教育可以让孩子赢在起跑线上->但是和让孩子在未来的专业道路上始终保持领先不具有必然的联系；
  - 虽然让老师变得更加专业没法达到以上两种方法的优点->但是让老师更加专业可以让学生的专业能力提升得更快，从而达到更高的水准。
- 第一段推理逻辑及段落写作
  - 逻辑：（更多的老师用于小班教学）可以针对学生定制个性化学习->主要对学生的弱点进行针对性提高->学生更加全面平均->但是更加平均意味着学生对于某一专业方面的兴趣和能力的培养->探索专业化道路的能力不足
  - Admittedly, hiring teachers to teach in small classes can apply personalized teaching schemes, such as one-on-one consultation, homework counseling and so forth, for different students. With these methods, teachers can help students eliminate their weakness and make their learning skills more averaging. Nevertheless, students' interest in some fields are not well cultivated results from teachers not focusing on students' strengths, but their weakness. Therefore, their professional skills are so poor that they have less possibility on exploring some special areas.

## 独立写作的结尾段

- 目的
  - restate the thesis
  - sums up the main ideas of the paper
- 信号词
  - In short, In conclusion,
  - ... **【待补充】**
- 例题：Do you agree or disagree with the following statement? Only people who earn a lot of money are successful
  - Disagree: As for me, success is not just about money. .... In short, we should never equate success with money, because every individual values success differently.
    - ◆ people 拆：teenagers, working class, senior citizens
    - ◆ success(ful)拆：health, family harmony, get access to ideal university, get a fulfilling job with a prospective career path.
    - ◆ 写：(paraphrase)
      - Students who can get access to their ideal university is success.
      - For the working classes, a fulfilling job will certainly provide them with a prospective career path, which means success.
      - Besides, success can be maintaining a stable level of physical status for

senior citizens.

- In short, we should never equate success with money, because every individual values success differently. 然后加上 students, working class, senior citizens 的三个分论点的 paraphrase 就可。
